Maximum AirWatts	1100
Maximum depression	5334 mm H ₂ O
Maximum air flow	50.0 l/s / 180.0 m ³ /h
Dust container capacity	43.2 litres
Filtration bag capacity	30.0 litres

HUSKY TITAN

THE NEW HUSKY TITAN KEY FEATURES

The result of Husky's expertise contained in one cleaning monster!

- 100 % made in Canada
- Equipped with two 3-stage Domel tangential motors mounted in series for unequalled suction power
- Exclusive air flow cooling technology to increase motor durability
- Hybrid filtration system for use with or without disposable filtration bag
- Permanent Husky filter with antibacterial Silpure treatment
- Intelligent electronic module with LED indicator
- Soft start & soft stop features to improve motor lifespan
- Warning notification for emptying the dust canister and device shutdown when maintenance is required
- High performance motor gaskets
- New assembly design makes maintenance easier
- Electronic module board located in the top portion of housing for optimal cooling
- Quality paint and brushed aluminum for a top of the line finish and luxurious style
- Includes muffler

Nothing escapes it!

HUSKY TITAN

Husky central vacuum systems are internationally recognized for their quality, performance and durability and have been for over 45 years.

Husky offers the broadest selection of central vacuum systems on the market, including dry hybrid models (with or without filtration bag), wet & dry models and the Husky PRO models, which may clean, vacuum and dry in a single step.
