

INTRODUCING --- THE HUSKY PRO AUTOMATIC SYSTEMS

Nothing escapes it

HUSKY 

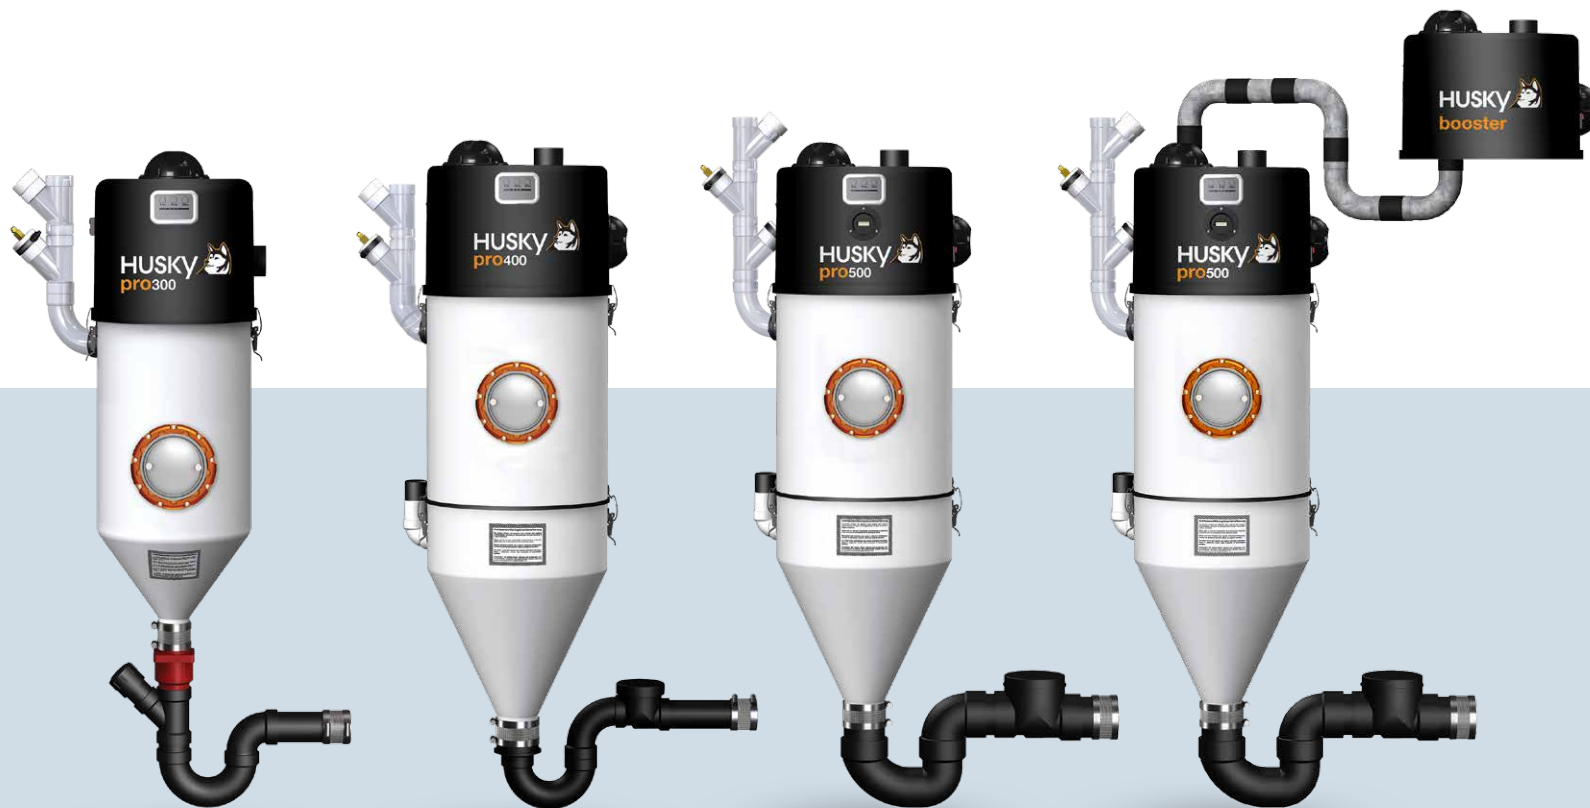

www.huskyvac.com

IMPRESSIVE NEW MODELS, NOW AVAILABLE AT HUSKY!

Benefit from the new HUSKY PRO technology to boost your sales!

Husky is proud to introduce a great new line-up of wet & dry models, all with automatic evacuation-to-drain. These new models are offered exclusively to Husky importers and are designed for residential, commercial and industrial use. Husky is now THE one-stop-shop for dry dust and wet & dry central cleaning.

A BOLD AND PRACTICAL DESIGN

Stand out in any crowded tradeshow, event or showroom!

PRO300 AND PRO400 – RECOMMENDED FOR RESIDENTIAL AND COMMERCIAL USE

TECHNICAL SPECIFICATIONS		
Model number	P300-EUH P300CB-EUH	P400-EUH P400CB-EUH
Electrical requirements	220-240 V, 8 A	220-240 V, 10.8 A
Maximum AirWatts	700	2 x 355
Maximum depression	3300 mm H ₂ O	4064 mm H ₂ O
Maximum air flow	80.55 l/s / 290 m ³ /h	54.16 l/s / 195 m ³ /h

A practical porthole gives an easy access inside the unit for cleaning and inspection. Water is injected directly at the air/dust intake on all models to liquefy any type of dust and deliver quick and easy drainage. See-through intakes let the user observe the cleaning power of the Husky PRO system!

A VARIETY OF MODELS TO MEET ALL NEEDS

Husky has the answer for all vacuum related needs, great or small!

PRO500 AND PRO600 – FOR ANY TYPE OF RESIDENTIAL OR COMMERCIAL USE, AND EVEN SOME INDUSTRIAL APPLICATIONS*

TECHNICAL SPECIFICATIONS		
Model number	P500-EUH P500CB-EUH	P600-EUH P600CB-EUH
Electrical requirements	220-240 V, 10.8 A	220-240 V, 2 x 10.8 A
Maximum AirWatts	2 x 355	4 x 355
Maximum depression	4064 mm H ₂ O	4064 mm H ₂ O
Maximum air flow	54.16 l/s / 195 m ³ /h	94.44 l/s / 340 m ³ /h

All Husky PRO models may be used for a wide variety of tasks, such as cleaning floors, washing carpets and upholstered furniture, degreasing kitchen surfaces, unclogging drains and toilets, removing snow in driveways... Just think of the unlimited possibilities!

** See conditions and restrictions of warranty.*

OPTIONAL HUSKY BOOSTER*

More flexibility and power for increased value!

The Husky BOOSTER offers flexibility and power to the PRO500 and PRO600 models. Up to 4 BOOSTERs may be attached to a unit, each adding 710 AirWatts to the system's power. Depending on specific requirements, the BOOSTER may be installed in parallel or in series to the main unit, thus allowing endless configuration possibilities to increase airflow or vacuum pressure.

***Imagine the power!
Imagine the potential!***

** The PRO600 model includes one BOOSTER as a basic feature.*

OPTIONAL *EASY-REACH* FEATURE

Ideal solution for catching objects that should not go down the drain!

The flexible opening of the Easy-Reach container option gives fast access to accidentally vacuumed objects. The Easy-Reach feature is available on all Husky PRO models with automatic evacuation-to-drain technology.

***Cleaning to do?
Husky has the solution for you!***

HIGH-END ACCESSORIES

Simply the best for your customers

**SEVERAL
WATER INJECTION
ACCESSORIES
AVAILABLE IN KITS
OR SEPARATELY**

WATER-POWERED PROPORTIONING PUMP

Requires no electricity and delivers accurate dispensing across varying water pressure and water flow. Ideally suited for in-line injection.

Accessories are suited for all types of floorings and surfaces

CUSTOM MADE MODELS

When one great unit is simply not enough

Because some industrial customers may have special needs that will require more than one or two standard units, Husky also offers custom made industrial models to meet any of their requirements.

Join many Husky importers and expand your product offering with a proven technology that will open new horizons for your business! Feel free to contact us if you need any additional information or to inquire about the availability of the products featured in this brochure.
